

Freedom Filler™ Kits

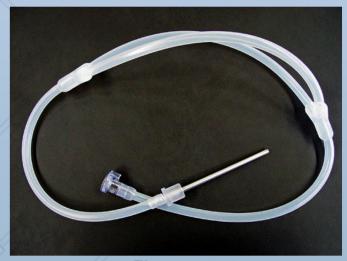

Overlook Industries, Inc. believes that the future of liquid packaging lies in the flexibility to adapt to ever changing product and customer demands. Overlook Freedom FillerTM kits embody our eighteen year heritage of maximizing productivity, while providing the ultimate in customization and flexibility. Overlook Freedom FillerTM kits include all necessary components of the fluid path and can be provided particulately cleaned, multi-bagged and gamma sterilized per customer requirements.

Overlook is proud to be the world's only provider of 0.5mm ID, 0.8mm ID and 1.2mm ID molded peristaltic pump elements!

Overlook specializes in the design and fabrication of custom molded tube sets for peristaltic pump systems and can provide the smallest and most precise molded pump elements in the world.

Sizing -

Fitted Kits: 0.5mm ID platinum-cured silicone tubing and up. Molded Kits: 0.5mm ID platinum-cured silicone tubing and up.

Freedom Filler™ Kit with Quick Disconnect

Double-Bagged Peristaltic Freedom Filler™ Kit

0.5mm ID Molded Peristaltic Pump Elements

Peristaltic Freedom Filler™ Kits w/Accessories

Freedom Filler™ Kits

Overlook specializes in the design and fabrication of custom molded fluid path assemblies for peristaltic pump systems and can provide the smallest and most precise molded pump elements in the world. Whereas fittings are troublesome to work with and have the potential to leak (especially smaller sizes), molded pump elements require no assembly and are guaranteed never to leak or fail. Overlook provides kits for time-pressure systems as well.

Benefits Associated with Overlook Single-Use Technology:

Revenue-Focused: Achieve line process and changeover in record time, easily pass costs to your customers.

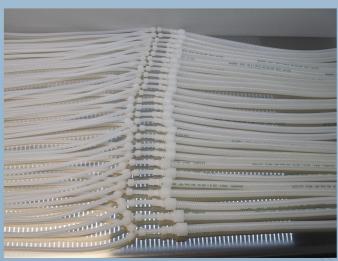

Asset-Focused: Reduce inventory costs with blanket orders and JIT delivery.

Process-Focused: Components are available from a wide variety of industry leaders in single-use systems.

Service-Focused: Kits can be multi-bagged, custom labeled and gamma sterilized, per end user requirements.
