

AIRCA

Rubber hose

- Rubber hose with alternating blue and black stripes
- SBR inner tube
- Synthetic fabric braid
- SBR/EPDM outer sheath (UV and ozone resistant)
- Resists flexion, traction and torsion forces
- Excellent abrasion resistance on concrete floors

► **Applications** : lubricated air supply for pneumatic tools.

VALYFLEX

Polyurethane hose with PVC sheath

- Hose: polyurethane inner layer, PVC outer layer
- Excellent abrasion resistance and flexibility

► **Applications** : compressed air, transfer of essences, oils, fuel oil, solvents, agricultural spraying, transfer of substances with medium abrasion (powders and grains).

STOFLEX

Anti-static rubber hose

- Electrical conductivity: electrical resistance < 106 ohm/m
- Inner tube: smooth black EPDM
- Carcass: synthetic thread
- Outer tube: smooth blue EPDM

► **Applications** : compressed air supply, paint spray guns, paint booths.

LOCKFLEX

Self-clamping NBR/PVC hose

- No clamps needed
- Suitable for AF unions, CPI outlets and quick couplings and so on
- Available in blue and red

► **Applications** : mould cooling circuits.

DIFLEX

PVC hose

- Transparent hose PVC reinforced with nylon braid
- Compatible with a wide range of chemical substance

► **Applications** : compressed air, water.

DOLEX

Industrial rubber hose

- Food grade
- NBR liner
- Synthetic fibre carcass and NBR/PVC coating

► **Applications** : washing of floors and hot water cleaning in food processing industries, canning factories, dairies, slaughterhouses.

SURFLEX

PVC hose with carcass

- Hose with 3 thermoplastic layers
- Light, flexible, resists impacts and compression

► **Applications** : air supply for pneumatic tools.

HOFLEX

PVC hose

- Anti-torsion PVC fabric braid
- "Total shield" protective PVC coating

► **Applications** : washing and cleaning with water, spraying.
