

QUALITY POLICY STATEMENT

The INDUCHEM GROUP

**INDUCHEM Ireland
INDUCHEM UK Ltd
INDUCHEM Engineering Services**

Expert People. Best in Class Product. Exceptional Service.

The Induchem Group is dedicated to achieving and maintaining a high standard of quality by complying with the requirements of ISO9001 and by providing products and services that meet the satisfaction of its client relative to specification requirements. These services are fit for purpose and commissioned for the client in accordance with instructions, and the Induchem Group is dedicated to continuous improvement of the Quality Management system. This is achieved through understanding the detailed requirements of the client and providing all services for our clients using the highest International Standards and Codes.

The Induchem Group has developed a Company Strategic Direction and identifies internal and external issues which are relevant to this strategy.

We are committed to the continuous improvement of our quality program, by setting quality objectives, to meet Client requirements.

The Induchem Group has addressed the Context of the Company and the needs & expectations of Interested Parties within the Quality Manual. These needs & expectations are also detailed within the strategic Company Business Plan.

This Quality Management System is designed to ensure that all activities carried out by the Induchem Group are planned, controlled and performed in a manner and to a standard of quality that is predictably acceptable to our clients. This performance is monitored through Key Performance Indicators (kpi).

In performing their duties the Directors of the Induchem Group commit themselves and all of their employees to maintaining and continually improving our quality system; to exercising all reasonable skill and care; and will ensure that regular reviews of the Company's performance take place and that the operation of the Quality Assurance System is monitored at regular intervals in order to ensure maximum effectiveness.

We will utilise training, toolbox talks, workshops and awareness sessions to ensure that all employees are familiar with the contents of the Group quality manual and comply at all times with all policies and procedures and associated documentation.

David Carroll
